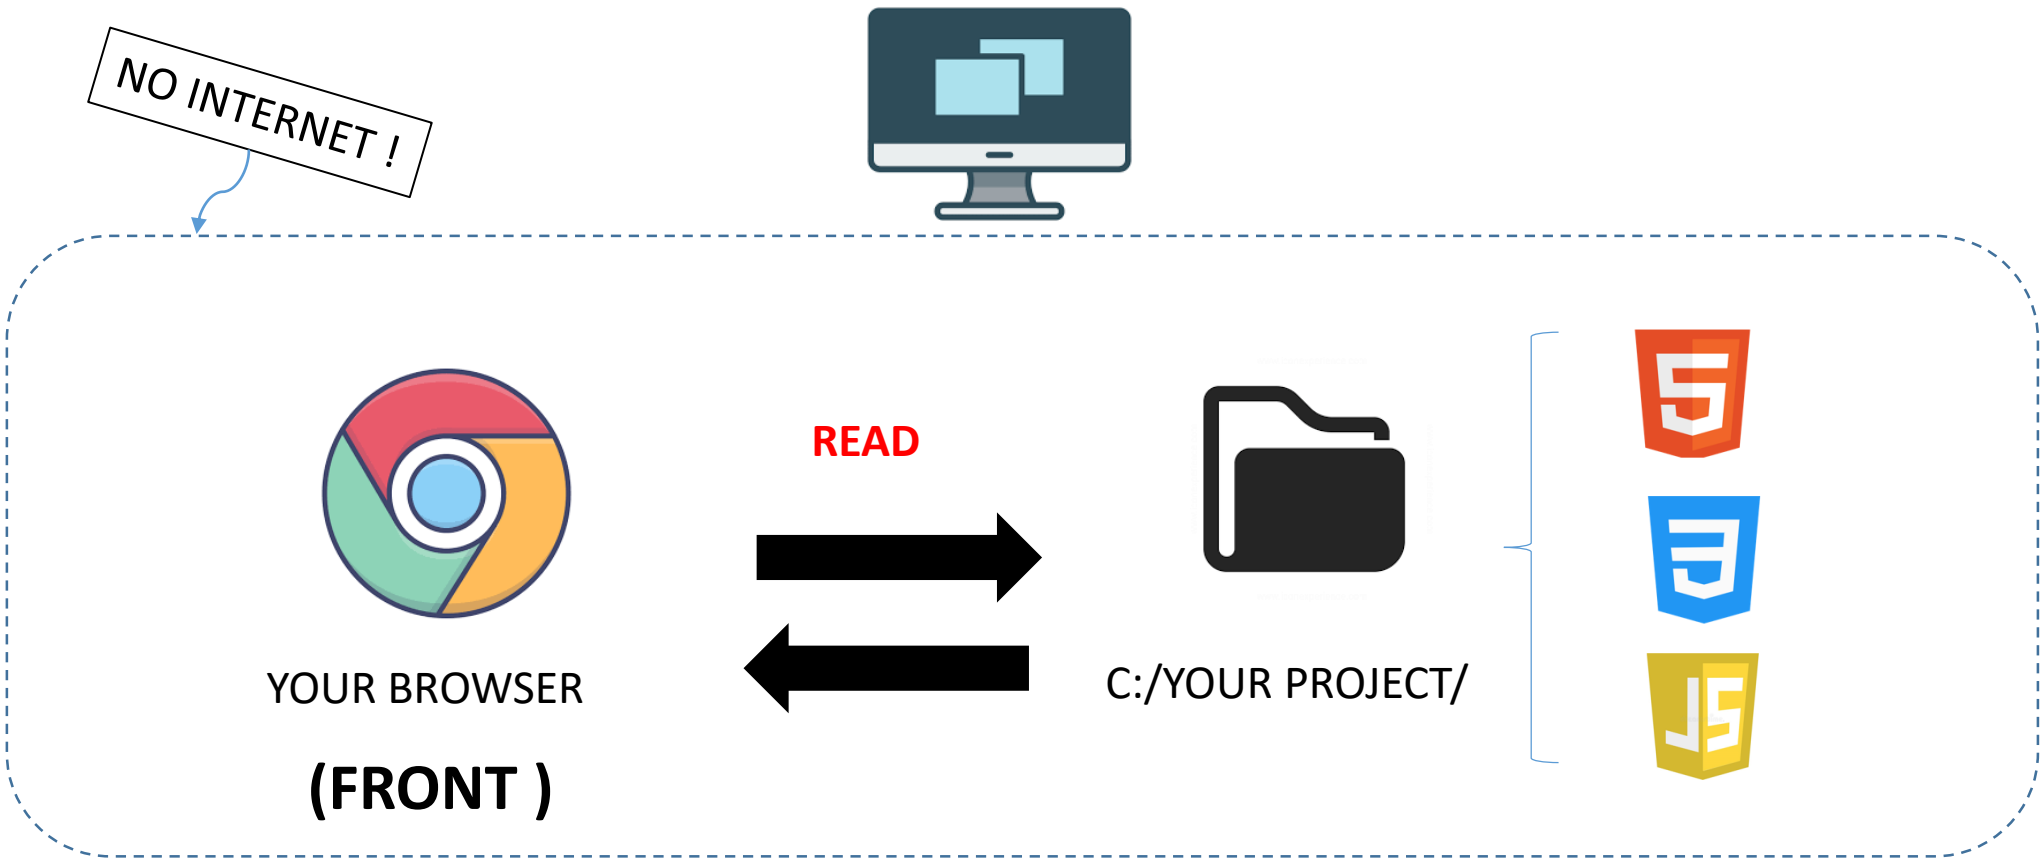
JS

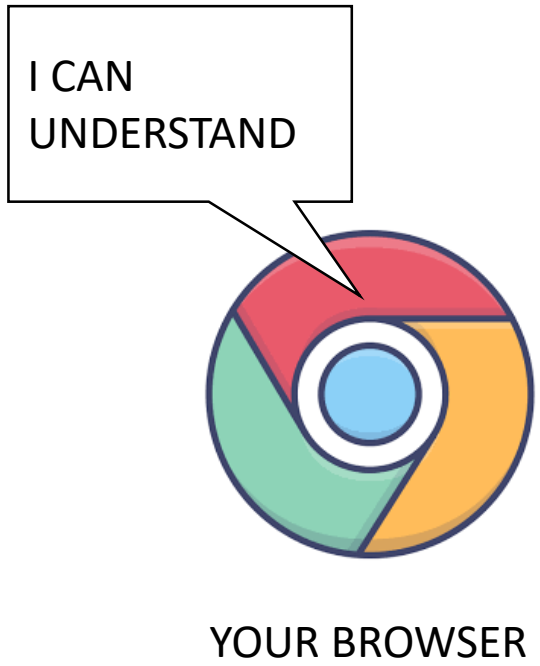
Back end

OVERVIEW - OBJECTIVES

So far, everything happens On FRONT side



So far, everything happens On YOUR computer



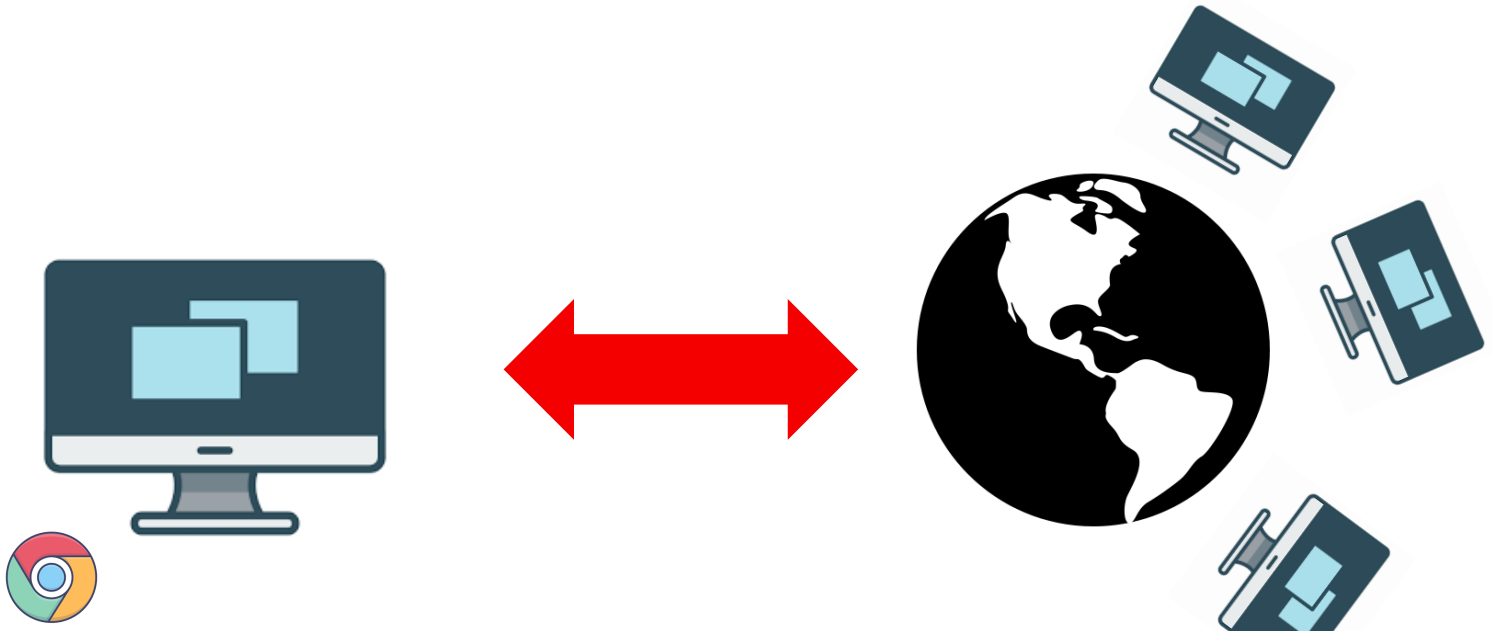
HTML to create DOM

CSS to style DOM

JS to update DOM and add functions

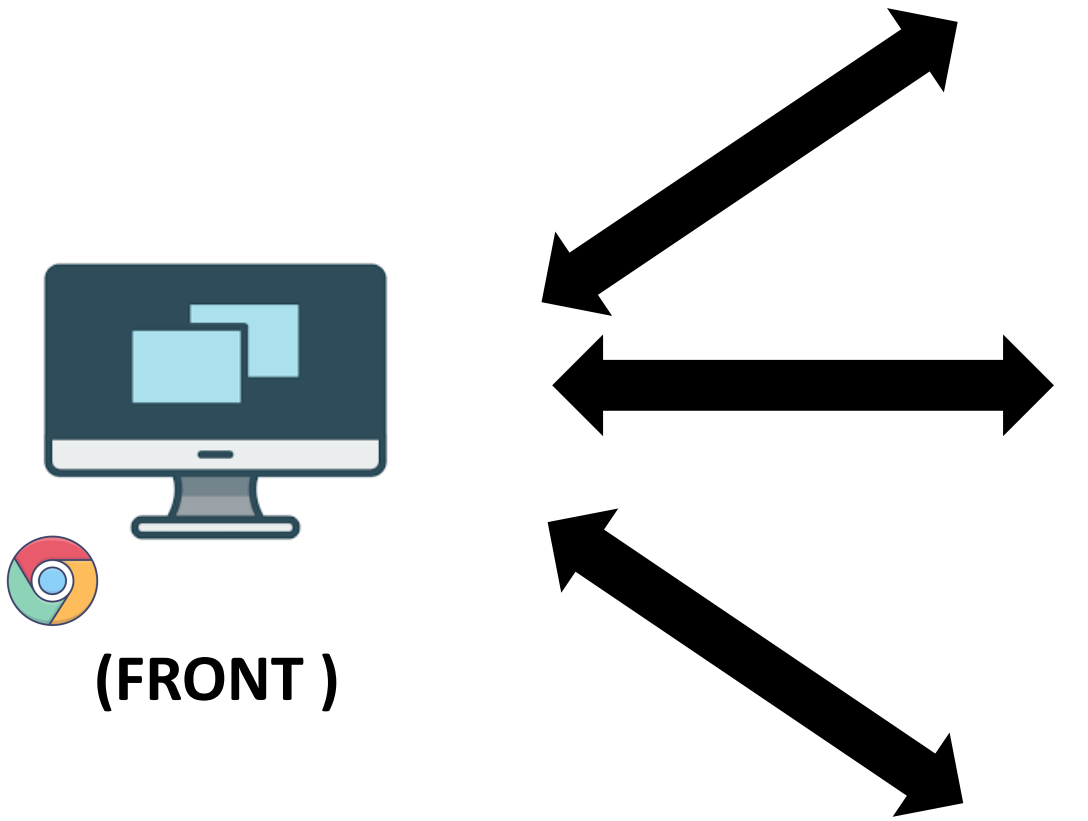
What about being connected To the world ?

DEMO



(FRONT)

Why do we need interactions ?



(FRONT)

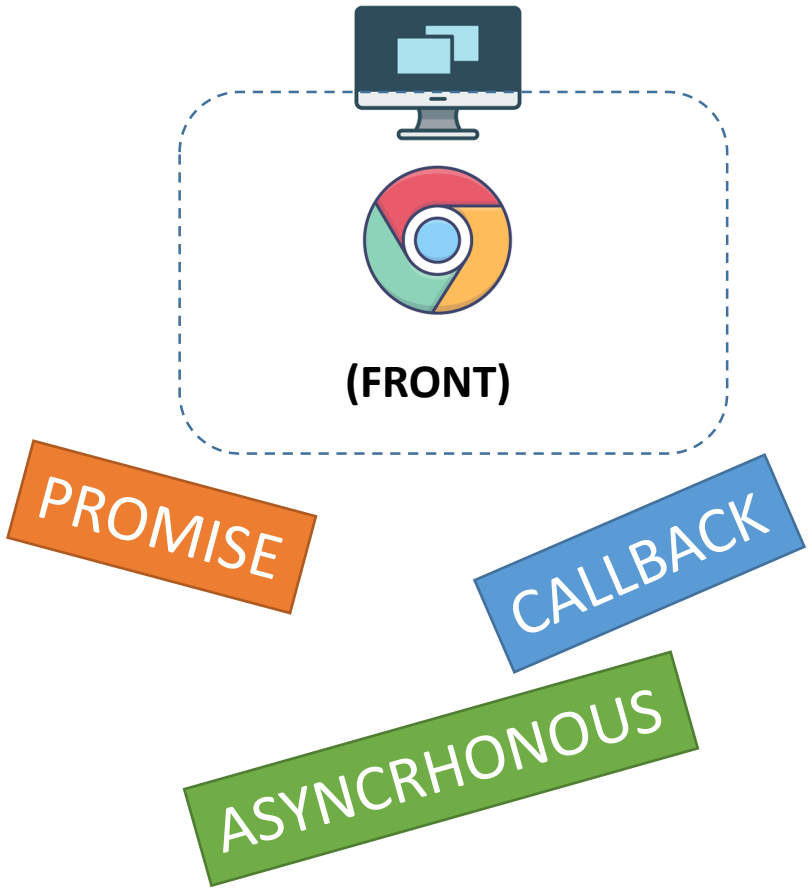
Interact with
a web service

Interact with
a database

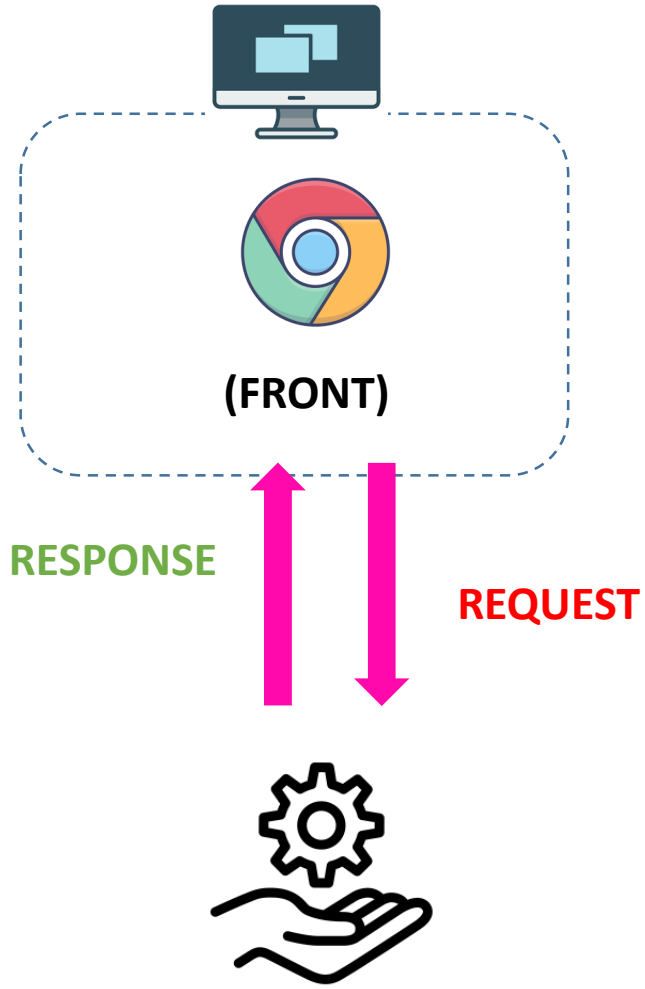
Interact with
people

This week, you will learn :

How JS can wait
For the requested data

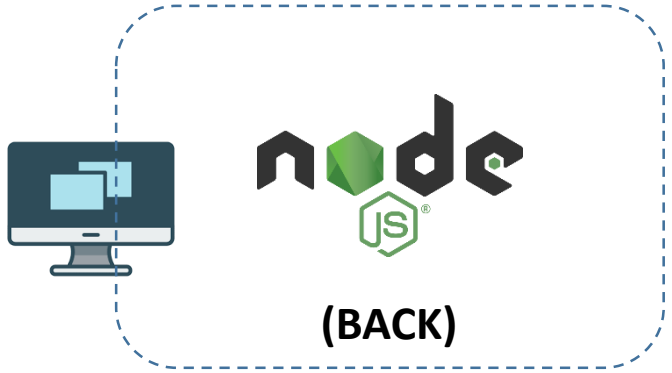


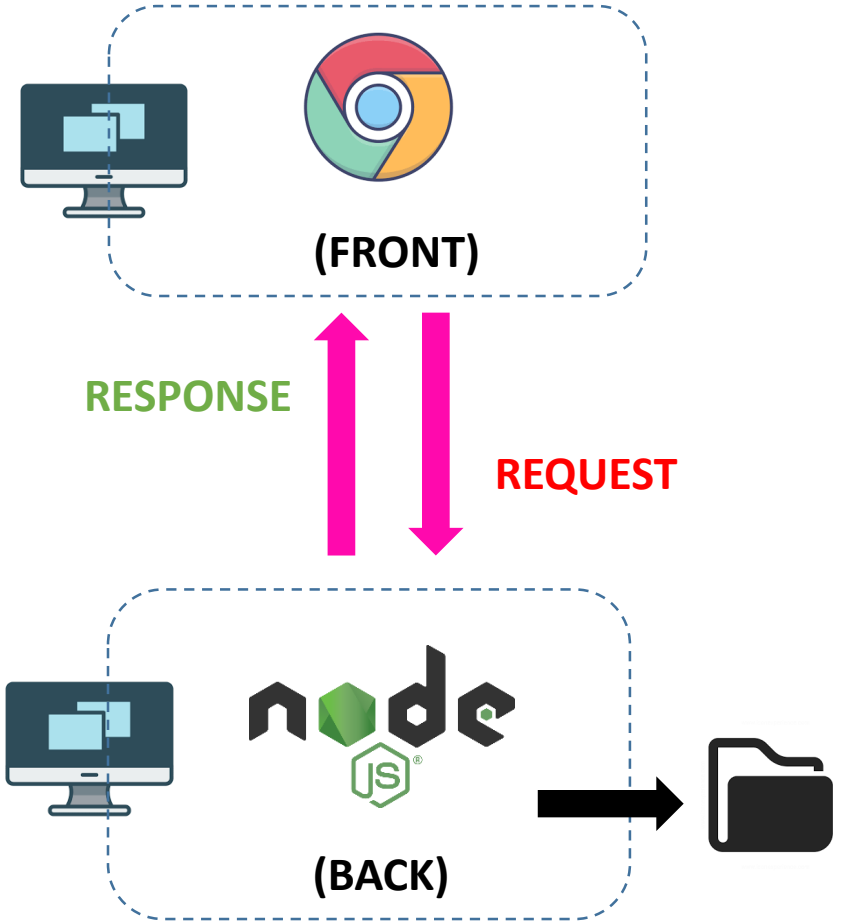
Request data to a web service



Next week, you will learn how :

To run a back





Back can *serve* data to front
